## About

Do you have children under the age of 6 years and would welcome a Children's Cottage worker into your home to help with resources, information, and guidance around parenting; child development; support for your family in problem solving; and to make connections with your community? We're ready to meet with you and your child(ren), talk about your family's needs and goals, and continue to meet with your family once a week, all in the convenience of your home.
